Shared Heritage Action Plan for Everyone

What makes Hastings & St Leonards special? We're creating a plan that will highlight what matters to local people and how we can work together to save and celebrate the best bits from the local past.

Heritage is not just the old buildings - it's also the festivals, the stories, the traditions, and the people that make our town unique. What parts of Hastings' past do you love?

We want to hear what matters from as many people as possible. You can share your thoughts and ideas at this listening base, or on the Hastings Commons website using the QR code.
